

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

I understand you are not in the business of monitoring flights and what occurs on each one. However, as a Flight Attendant, I must express the hardship that will follow should cell phones be allowed continuously inflight.

We monitor bags, we monitor bathroom lines, we monitor minor escalations amongst passengers. These 3 alone are enough to have to spend time monitoring and managing. Should cell phones be allowed, we would have absolutely no control to stop the irritations, as it would be too late. The control we would have would be to divert and land, to remove the passenger. Yet, since it would be legal to use cell phones throughout a flight, this too would not be a strategy we could employ.

Please listen to the feedback. Most passengers as well as crew members do not want expanded use of cell phones inflight.

Please leave the current rules in effect.

Sincerely,

Kathy Fischer 5820 First Landing Way Burke, VA 22015

Sincerely,

Kathy Fischer
